

PREVENT IN PRACTICE

What is PREVENT?

Prevent is part of the UK government's counter-terrorism strategy and aims not only to stop people becoming terrorists but to challenge and prevent support of terrorism, radicalisation and extremism, while at the same time protecting the public. There are different types of terrorism, and Prevent deals with all of them

The Prevent in practice workshop will cover:

- **What is Terrorism, Extremism, Radicalisation and Ideology**
- **Behaviours and vulnerabilities.**
 - **Spotting the signs of Radicalisation**
- **In depth guidance on the Prevent referral procedure and Practice.**
 - **Channel process.**
- **Real life anonymised Case studies**

By the end we hope that practitioners will feel confident about dealing with prevent related concerns and will be able to support colleagues to do the same.
